

Scope of Work
for
Preparation of Report on Constitution of Water supply and Sewerage
Board or Company in Madhya Pradesh

State Govt. wants to constitute Water supply and Sewerage Board / company in the State under ADB sponsored Project Uday and in compliance of decision of Hon'ble Chief Minister and Manthan 2009. World Bank has already conducted a detailed study in the country in this regard. Detailed document/report for the constitution of Water Supply and Sewerage Board or Company is to prepare in the context of Madhya Pradesh for necessary action and decision. The report will primarily include the following issues/points:

- Critical analysis of various options prevalent in the country and international best practices particularly in water supply, sewerage and sanitation sector and suggest best option for formation of suitable independent organization such as Board or Company with proper justification for managing Water supply and Sewerage in urban areas.
- Administrative structure of Board or Company, their duties and powers on the basis of above recommendation.
- Rules and Working system of Board or company.
- Study and assess the existing Municipal Corporation Act. 1956 and Municipal Act 1961 in this regard and suggest modifications (if required)

Technical and financial proposal is invited from empanelled consultants for formation of Water Supply and Sewerage Board or Company for managing water supply and sewerage in urban areas of the state on above points and other relevant issues.
